< JUNIOR FULLSTACK DEVELOPER >

PROFILE

I spent most of my life studying, gaming and teaching myself everything related with technology. Huge enthusiast of GNU/Linux and coding. Decided to chase my dream by joining Code For All_ and do what I love the most, which is coding!

PROJECTS

Portfolio

2024

Developed a dynamic portfolio website with seamless user experience, combining HTML, CSS, and JavaScript for a visually stunning and interactive showcase of my skills and projects.

invaders

2023

Programmed an open-source terminal arcade game in Rust, a modern twist on the classic Space Invaders, featuring immersive audio integration for a nostalgic yet innovative gaming experience.

mapEditor

2023

Created a Java application serving as an intuitive map editor, utilizing the SimpleGraphics library for graphics and keyboard input.
