WORK EXPERIENCE

Visabeira

MEO Salesperson

Viseu, Portugal

Jul 2024 - Present

- Assisted customers with telecommunications products and services, including account management, contract renewals, service changes, and technical support in a fast-paced retail environment.

Randstad

Medicar Call Center Agent

Viseu, Portugal

Sep 2022 - Dec 2022

- Conducted outbound outreach to customers and partner organizations, encouraging opt-in for future communications and contributing to a significant increase in the contact database within three months.

PROJECT EXPERIENCE

Linux & Infrastructures

Self-Hosted Linux Server

- Built and maintained a Linux-based home server hosting media, file storage, and remote access services.
- Configured networking, DNS, SSH, and secure remote access.
- Troubleshoot networking, hardware, and Linux system issues.

Systems Programming

Invaders

- Developed a terminal-based Space Invaders clone in Rust, inspired by the classic arcade game.
- Structured the project with reusable modules to improve maintainability and code organization.
- Implemented game mechanics including collision detection, scoring, enemy movement, and player controls.

Automation

Calendar Converter

- Developed a tool that converts work schedules from Excel spreadsheets into the iCalendar (.ics) format.
- Automated the creation of calendar events, eliminating the need for manual data entry.
- Designed the application to simplify shift management and improve personal scheduling efficiency.
